RxFunction, Inc. Chosen 2019 Inno on Fire Winner for Medical / Health / Wellness Category by Minne Inno

Eden Prairie, Minnesota. (June 20, 2019). RxFunction was honored to be chosen as a Minne Inno 2019 Inno on Fire Winner in the Medical / Health / Wellness category. The Minne Inno competition recognized RxFunction in a select group of medical, health and wellness companies as a local innovator that is "truly setting the scene on fire" with the development and commercialization of Walkasins®.

RxFunction was acknowledged at Minne Inno's 2019 "Inno on Fire Winners and Blazers" celebration held in Minneapolis, Minnesota where RxFunction was included in a video highlighting honorees and filmed earlier in Minneapolis. Minne Inno is part of American Inno and is affiliated with the Minneapolis/St. Paul Business Journal.

"We were thrilled to be nominated and recognized as a 2019 Inno on Fire honoree along with the impressive cohort of companies in this category," said co-inventor and company co-founder and Chief Technology Officer, Lars Oddsson, PhD. CEO Tom Morizio adds, "It's a testament to the dedication and years of hard work researching, developing and building this innovative solution, Walkasins, to benefit the millions of patients who suffer from peripheral neuropathy and its related balance and gait impairments, and who are at high risk of falling."

Walkasins is an external lower limb sensory prosthesis intended to replace the nerve function used for detection and signaling of foot pressure sensation. The company developed Walkasins to help improve balance in patients who experience gait and mobility problems due to sensory peripheral neuropathy, a disorder where the nerves in the feet are damaged causing numbness. Walkasins are available by prescription following evaluation by a trained clinician. According to the **National Institutes of Health**, an estimated **20 million Americans have some form of peripheral neuropathy**, commonly a consequence of diabetes and chemotherapy, and widely present in the elderly population.
